Future scope of the European Journal of Social and Behavioral Sciences is open to your suggestions. This volume again focuses on the Education & Educational Psychology. However, I would like to encourage you to submit original research notes as well as opinions in all the areas of Social and Behavioral Sciences. As an editor of the II-III-IV Volumes of the Journal, I would like to remind you that, the success of this enterprise depends on your response. I would appreciate your feedback.

Dr Elvin Kerime Silahtaroglu,
Cag University, TURKEY
